

Meritor Part

Meritor Parts - The Meritor Company is a leading international dealer founded upon one hundred years of tradition of quality and service. Meritor specializes in integrated systems with various modules and components to the original equipment makers and aftermarket equipment within the industrial and transportation trades.

Meritor values the needs of their clients to ensure their success while priding itself in the company's unique energy and feels this output of energy to be their aggressive advantage in their international operations. Meritor begins with a tradition which values diversity of individuals and their broad thought processes. Operating in 19 nations and employing over 11,200 individuals, Meritor encourages innovation and collaboration among a team of knowledgeable experts.

By just hiring future focused staff, Meritor strongly thinks these top-caliber individuals will be able to rapidly get used to to changing surroundings and demonstrate the commitment and performance needed to reach results in the competitive materials handling business. The company empowers their teams to make sound business decisions to be able to improve the overall success of the business. In return, Meritor provides their staff various chances for professional and personal development.

The Advanced Engineering team is on the forefront of systems engineering and components. This includes axles, drivelines, braking and suspension systems designed for heavy duty and medium trucks, buses, military vehicles, trailers and off-highway vehicles. The Meritor Advanced Engineering team is developing. They started a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives which represent the whole Asia Pacific region. This particular team is even responsible for supporting the needs of all their worldwide engineering workers.

Meritor's customer focused and dynamic Quality team is devoted to ensuring optimum processing at their production plants and aftermarket distribution facilities that are situated all over the globe in 19 nations and in 5 different continents.

They have their supplier network that is specifically located in order to support the development of the business. Every regional team has internationally supported initiatives, quality systems and centralized in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a data-driven, fact-based approach to decision making within each aspect of the company. The DFSS or likewise known as Design for Six Sigma ensures product reliability within every region. The team is also comprised of transactional Green Belts who make use of Six Sigma tools to business processes and implement lean methods.
