Clark Totalift, handles more than 120,000 particular components built for 20 unique designs of forklifts and automated equipment. Your local Clark Seller is your total source for availability of all your components requirements provided by Clark Totalift.

Clark has a phenomenal Parts Distribution team. The items warehouses are conveniently stationed in Changwon, South Korea and Louisville, Kentucky to guarantee exceptional service to both their buyers and their dealers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing manufacturers. Driven to provide the highest level of value and service to our clients, Clark remains on the leading edge when it comes to enhancing efficiency and benefiting performance.

Clark Totalift has a very outstanding global support network. With over 550 locations globally, supplier representation in over 80 countries and 230 locations in North America, their high level of dedication to their consumers predominates the material handling market.

By pioneering the operator restraint system protection feature, Clark proudly remains a leader of modernization in the industrial equipment and automated forklift industry. This exceptional dedication to safety is at this time a customary feature on every forklift.

Clark's continual goal to possess the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck manufacturer across the globe to be certified with the globally approved quality standard ISO 9001 for every one of their manufacturing plants. Furthermore, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be ready for any number of environmental limitations, thus placing them in a dominant industry position.

Clark has chosen the system of "Lean Production" at all of its assembly plants because this system is particularly economical and permits minimal use of resources. Developed to guarantee maximum proficiency, this system is intended to discover and acknowledge the most efficient ways for manufacturing facility stewardship. Clark has concluded this transition of its Korean plant. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers communicate together to improve the efficiency and excellence of their merchandise while minimizing costs. The contemporary value engineering agenda combines modern product improvement and provides superior customer support and service within the industry.
